

5th Sino-French Joint Workshop on Atmospheric Environment

Air Quality Improvement and Future Challenges: Sciences, Technologies & Solutions

Xi'an - China
October 11th - 14th, 2016

Organized by:

	CRAES-MEP	Chinese Research Academy of Environmental Sciences
	ICARE-CNRS	Institut de Combustion, Aérothermique, Réactivité et Environnement
	RCEES-CAS	Research Centre for Eco-Environmental Sciences
	FD-MOE	Fudan University
	SDU-MOE	Shandong University
	IRCELYON-CNRS	Institut de Recherches sur la Catalyse et l'Environnement de Lyon
	XI'AN-EPB-MEP	Xi'an Municipal Environmental Protection Bureau
	JES	Journal of Environmental Sciences
	SKL-ECRA	State Key Laboratory of Environmental Criteria and Risk Assessment
	CICAET	Collaborative Innovation Center of Atmospheric Environment and Equipment Technology

Hosted by:

XI'AN-MRIEP: Xi'an Municipal Research Institute of Environmental Protection
IEE-CAS: Institute of Earth Environment, Chinese Academy of Sciences
SHX-PAES: Shaanxi Provincial Academy of Environmental Science
XI'AN-JTU-MOE: Xi'an Jiaotong University

Despite significant improvements, serious air pollution problems still persist worldwide and are becoming more and more complex and varying from one region to another. Science and technologies are required to provide solutions and alternatives. Therefore, a scientifically sound understanding is urgently needed to disclose the key reasons for regional complex air pollution problems and for the effective implementation of control measures.

The Sino-French Conferences on Atmospheric Environment have been successfully held for four times since 2008 (Beijing, Orléans, Qingdao, Lyon), they have provided the opportunity for fruitful cooperation among interdisciplinary scientists. Three dedicated issues of Journal of Environmental Sciences have been published for the 2nd, 3rd and 4th workshops.

The 5th Sino-French Workshop will be held on October 11-14th, 2016 at Xi'an, China. The subject of the present conference is "Air quality improvement and the future challenges: Science, Technology, and the Countermeasures." The conference aims to provide a platform for scientists, environmental managers, entrepreneurs, and local government representatives from all walks for the research and management of the complex urban and regional atmospheric pollution problem.

Since the first announcement of the conference was issued in April 2016, positive response and submission have been received from the experts from colleges and universities, research institutes and other research organizations in China; and in the same time, positive response have also been received from scholars from France and other countries. All of these supports from the potential participants are highly appreciated.

The organizing committee of the conference will book the hotel rooms for the potential participants according to the receipt number. Since October is the tourist season for Xi'an, the potential participants are required to send the return receipt for the second announcement through emails before **September 15th, 2016** to the organizing committee of the conference to avoid the inconvenience due to the insufficient reservation for the participants.

Registration time

October 11th, 2016

Venue & Accommodation

Xi'an Qujiang hotel, China (No.6, Yanta Road South, Yanta District, Xi'an, Shaanxi Province)

Preliminary Program

Date	Time	Activities
Tuesday, October 11 th	Whole Day	Registration
	18:00–20:00	Dinner
Wednesday, October 12 th	9:00–9:30	<i>Opening Ceremony</i>
	9:30–12:00	Plenary Lectures
	12:00–13:30	Lunch
	14:00–18:00	Presentations & Posters
	18:00–20:00	Dinner
Thursday, October 13 th	9:00- 12:00	Presentations & Posters
	12:00–13:30	Lunch
	14:00-18:00	Presentations & Posters
	18:00-20:00	Dinner
Friday, October 14 th	Whole Day	Departure

Conference form

The official language of the workshop is English, the workshop abstracts proceedings will be distributed to the participants in the workshop. The reporting forms will include Plenary Lectures, Invited Speeches (Keynotes), Oral Presentations and Poster Presentations, which will

be decided by the Conference Academic Committee according to the contents of the abstracts and will be informed to the participants by E-mails.

The SCI academic journal « Journal of Environmental Sciences » will continue to support this workshop. Parts of the excellent papers will be recommended to « Journal of Environmental Sciences », and peer-reviewed papers will be published in a special issue of « Journal of Environmental Sciences ».

Call for Papers

- (1) The research results, which have not been published in academic journals and have not been presented in the national or international academic conferences, are preferred to be reported in the abstract.
- (2) The abstract in English should include four parts of “Objective, Method, Result and Conclusion”.
- (3) Using Word Document Layout (See the Attached Pages 4 for the format of the abstract);
- (4) Participants are required to send the abstracts in word format by email to sinofrench2016@126.com before **September 15th, 2016**.

Registration Fee

Registration fee will be 1500 RMB for one participant.

The participants will take care of their accommodation costs and international travel fees for the workshop.

Return receipt

For the convenience of workshop organization, participants should send their Second Round Return Receipt (see the Attached Page 3) by email to sinofrench2016@126.com before **September 15th, 2016**.

Important Dates

Time	Activities
September 15 th , 2016	Abstract submission and the second return receipt deadline
September 20 th , 2016	The third announcement (including the information of conference transportation, the draft of the detailed conference program and the payment method for the registration fee)

Conference venue

The scientific exchanges will take place on October 11-14th, 2016 in Xi'an Qujiang Hotel, China (See Attached Page 5).

Xi'an Qujiang Hotel is located in the south of a national cultural industry demonstration zone named Qujiang New Zone of Xi'an. Xi'an Qujiang hotel covers an area of 130,000 square meters and the building area is 45,000 square meters. The hotel is the largest integrated garden hotel in the northwest region of China, which have the most complete conference facilities, and the collection of catering, accommodation and entertainment. Xi'an Qujiang Hotel was elaborately designed according to the traditional landscape architecture layout practices, there are buildings combined with Chinese and western styles, and its appearance is simple and elegant, solemn, and magnificent momentum; it is a magnificent vivid reproduction of the elegant scenery of the Changan Qujiang Stream Drink in Tang Dynasty.

The Xi'an Qujiang Hotel is situated near to the south of the famous scenic area of Wild Goose Pagoda with the distance of 1 km. It will take 35 minutes and 15 minutes from Xi'an XianYang International Airport and the Railway Station, respectively, to get to the Xi'an Qujiang Hotel.

Move-in time		Check-out Time	
Whether to share	Yes <input type="checkbox"/> No <input type="checkbox"/>	Accommodation Standard: Double Room---550 RMB per day (including double breakfast); Single Room---490 RMB per day(including single breakfast).	
Remarks: Any special requirements for living or diet	Yes <input type="checkbox"/> No <input type="checkbox"/>		
If there are any special requirements for living or diet, please explain in details			

Remarks: Please send the form in English by email to sinofrench2016@126.com before **September 15th, 2016**.

Attached Page 4 (Abstract Report)

Abstract Title Centred and Bold in Upper- and Lowercase

Given-name Family-name (Surname)¹ and Given-name Family-name (Surname)²
(Example: John Smith¹, Susan Jones²,)

¹Department/Research Institute, University, Country

²Department/Research Institute, University, Country, email@presenting.author

The abstract should not exceed two pages with 1 column.

Fonts used should be used as appearing in this template. (main text in Calibri size 12)

The abstract can be freely structured but it should provide insights into the topics to be addressed and give clear indications on the results to be presented.
